

STORM MOUNTAIN COMMUNITY (DRAKE, CO) INFORMATION

Updated April 5, 2023

The following information has been accumulated for purposes of welcoming newcomers to our Storm Mountain Community and to help answer questions you might have regarding Homeowner Associations, Road Maintenance, Communication, Local Volunteer Fire Departments, Organizations, Local Service Providers, and the Map of the Storm Mountain Community.

- **CEDAR SPRINGS SUBDIVISION FILINGS 1 & 2, 3 & 4**

Website: www.csiadrake.com

Email: cedarspringsboard08@gmail.com

Cedar Springs Filings 1 & 2 (not subject to Association covenants, due to the developer's failure to file them for these two filings)

Letter to Property Owners of Cedar Springs Filings 1 & 2 from Cedar Springs Improvement Association:
Welcome to the Storm Mountain community. We are happy to have you here. Your property lies within Cedar Springs Estates Filing 1 or Filing 2. As originally conceived, Cedar Springs Estates consisted of Filings 1 through 4, and all four filings were platted under Cedar Springs Estates, a subdivision. The Cedar Springs Improvement Association owns and is responsible for maintaining the lake in Filing 1 and all other common areas in the subdivision. We are happy to have you as a part of our friendly, rural community. If we can be of any help, please contact us by email at cedarspringsboard08@gmail.com.

Cedar Springs Filings 3 & 4 (Represented by the Cedar Springs Improvement Association)

Please see covenants and other documents that pertain to Cedar Springs Filings 3 & 4 in the LEGAL section of the Cedar Springs Improvement Association website: www.csiadrake.com.
Contact email: cedarspringsboard08@gmail.com

The following information was provided by Kaelen Barden in an email to StormMountain@groups.io on January 1, 2023, which included an email to the CSIA membership sent on August 19, 2022.

Cedar Springs Improvement Association (CSIA) Board

President: Kaelen Barden

Vice President: Elizabeth (Liz) Gosnell

Treasurer: (acting) Elizabeth (Liz) Gosnell

Secretary: Jessica O'Bryan

Director at Large: Open

- **CEDAR PARK SUBDIVISION FILINGS 1, 2, 3, 4, 5, 6, 7**

Website: <http://stormmountain.org>

For information about the Cedar Park subdivision, including plat maps and protective covenants as recorded with Larimer County, see the CPRMC section of <http://stormmountain.org>.

- **ROAD MAINTENANCE** - Public Improvement District (PID) Information

Websites with PID Information Link: www.csiadrake.com and <http://stormmountain.org> (with much background and historical information)

stormmountain@groups.io – the message archive contains contemporaneous conversations since the beginning.

PID Website: <https://stormmountainpid.blogspot.com/> for current postings from the PID Board

Email: stormmountainpid@gmail.com

Message: 1-970-429-5350 – from land line

970-429-5350 – from cell phone

Mailing Address: PO Box 314, Drake, CO 80515

The voice message goes to all the following PID Advisory Board members:

Chairman:	Connie Garrett
Secretary:	Joe Leo
Treasurer:	James Toland
Board Member:	Andy Hitch
Board Member:	John Lodico

The Storm Mountain PID Board is an exclusive entity and is not affiliated with any current Storm Mountain Homeowners groups (CPRMC or CSIA). Its sole purpose deals with maintenance of our Storm Mountain Community roadways.

The continuation, purpose, and responsibility of the Cedar Springs and Cedar Park Homeowners groups will be determined by those individual groups and have no bearing on the functionality, budget, and purpose of the Storm Mountain PID and/or Board.

All funding for the Storm Mountain PID is derived through the tax assessment and collection process of Larimer County; acting as the agent of the Storm Mountain PID Board, and all funds collected or contained by other homeowner groups or associations within the Storm Mountain Community have no bearing on the PID business.

- **COMMUNICATION on the Mountain:**

<http://stormmountain.org> is a website maintained by John Green as a service to the community. It contains information of general interest to our community, a forum discussion area, and also acts as a portal (has links) to other community-related websites.

The Storm Mountain Email Discussion List – stormmountain@groups.io

Open to all residents and property owners in Cedar Park, Cedar Springs and the surrounding Storm Mountain area, this email group provides a way to communicate with other members of our community. When a group member sends an email to stormmountain@groups.io, (from an email address that is a member of the group), every member of the group gets a copy of the email. The group is often used to inform and make requests of others in the community, for example, about missing pets, road conditions, items for sale, community meetings and other topics of interest to members of our community. Learn about the group at the group

website: <https://stormmountain.groups.io/g/main>. After you apply for group membership, be sure to indicate your connection to the community by replying to the **"Response required to act on your request for membership in stormmountain@groups.io group"** email.

Feel free to call John if you have any questions about the group or joining.

John Green 970-667-7888; john@joyfulhaven.com

- **FIRE DEPARTMENTS: FOR ALL EMERGENCIES DIAL 911**

Loveland Fire Rescue Authority – <https://lfra.org>

Mailing address for all correspondence:

410 East 5th Street

Loveland, CO 80537

Main Phone Line: (970) 962-2471

Loveland Rural Fire Protection District

<https://lfra.org/about-us/loveland-rural-fire-protection-district/>

Community LFRA Contact: Micaiah White, Micaiah.White@lfra.org, 970.342.1168

Fire Station 8

1461 Big Thompson Canyon Road

PO Box 390

Drake, CO 80515

970-203-0348

Volunteer firefighter response.

Fire Station 9

100 Palisade Mountain Drive

PO Box 390

Drake, CO 80515

970-667-3526

Volunteer firefighter response.

Opened in March, 2016, Fire Station 9 proudly serves the Cedar Park and Cedar Springs Estates subdivisions and the surrounding private and public lands. Station 9 and Station 8 at 1461 West Highway 34 are unmanned stations. Staffing consists of highly-trained volunteers of the LFRA Canyon Battalion.

Donations are welcomed to support the procurement of specialized equipment, signage, and the like. Donations can be sent to the LFRA Loveland address above.

While the engraved paving brick program via Polar Engraving is no longer active, the bricks can still be ordered. Checks need to be sent to LFRA directly. <http://www.polarengraving.com/BTCVFD>.

More information about the Canyon Battalion is located at <https://lfra.org/our-services/fire-suppression-operations/canyon-battalion/>

For information about volunteering <https://lfra.org/about-us/careers/>.

- **LARIMER COUNTY ANIMAL CONTROL:** for dogs running loose call Larimer County Animal Control: 970-226-3647; or go to the website: <http://www.larimerhumane.org/animal-control/larimer-county-service/776-larimer-county-animal-control-service>. Tell them where the dogs are if they are not under the control of the owner. More information can be obtained at: <https://www.larimer.org/sites/default/files/uploads/2017/animal.pdf>
- **LARIMER COUNTY SHERIFF'S OFFICE:** <https://www.larimer.org/sheriff>. **Note:** If you have an **emergency**, please call 911. If you need to report a crime or ask a police related question, please call the *Larimer County Sheriff's Office* at 970-416-1985.
- **LARIMER EMERGENCY TELEPHONE AUTHORITY:**
<https://nocoalert.org/> - View or sign up for Larimer County Emergency Notifications (including evacuation notices) via landlines, mobile phones, email addresses, and even fax.
<https://leta911.org/> - Information about LETA, and an alternate place to sign up for Larimer County Emergency Alerts.
- **FIRE INCIDENT INFORMATION:** <https://inciweb.nwcg.gov/>
Information about active fires across the country.

|

STORM MOUNTAIN ORGANIZATIONS:

Activities: Annual 4th of July parade and picnic – In the past this was coordinated by Chris Brock. As she has moved off the mountain, I don't know about the current status.

Community Windshield Stickers

This is a community service that started after the Bobcat fire. The stickers assist emergency services personnel, as well as your mountain neighbors, to identify vehicles that belong on the Mountain. Windshield stickers are available to Storm Mountain residents and property owners only.

CPCS – the original Red on White format, easily noticed and recognized by area residents. An alternate “StmMtn” sticker is also available. Windshield stickers cost \$1 each, plus either a self-addressed stamped envelope or an additional \$1 for mailing. Be sure to specify whether you want stickers to apply to the inside of the window, or on the surface of something. Contact John Green at john@joyfulhaven.com or PO Box 137, Drake, CO 80515-0137

An alternate Storm Mountain window sticker, pictured below, is available. They are \$3 each and there are two types, one to be applied to the interior of a window, and another to be applied to the exterior. The interior stickers are sticky on the front to be placed inside the windshield or other window. The exterior stickers are designed to be placed on the outside of the window or bumper. The exterior stickers are transfer stickers and have a blue backing that needs to be removed, then the sticker placed upon a cleaned portion of the vehicle and rubbed on using a credit card or hard flat surface, then finally pulling the plastic piece off. The sticker is then transferred to the vehicle's surface.

To obtain stickers, please contact Diane Haight with the quantity and type desired. You can email at dhaight77@hotmail.com to arrange pick-up.

Stitch ‘n Bitch – for women that enjoy crafting and chatting with other women on the Mountain. SnB meets the second Wednesday of the month. Contact: Joanne Knight; jmknights84@yahoo.com

Winter road traction recommendations

Mountain Courtesy: Yield right-of-way to vehicles traveling uphill. Especially in slippery winter conditions, if you cause a vehicle traveling uphill to stop, that vehicle may not be able to regain traction to continue uphill, and may even begin to slide backward, endangering others. Instead, attempt to pull into a wider spot on the road and stop before the uphill-traveling vehicle reaches you. This applies in summer as well, particularly when approached by a heavy vehicle (propane, water delivery, etc.) traveling uphill.

Enhanced tire traction in the winter is a necessity for those driving up in the Storm Mountain area on many – if not most – days, especially when driving up or down the access road (i.e. Storm Mountain Rd. from CR43 to the “T”).

4WD / AWD with studded tires are often sufficient in many conditions – like packed snow, even slick / icy packed snow.

Fresh snow changes the equation. The studs on studded tires don’t effectively grip loose, fresh snow, especially when it falls on an icy / slippery surface. Tire chains significantly improve traction in fresh snow.

Many long-time residents have their favorite kind of chains for cars and light trucks. Peerless Auto-Trac self-tightening chains are popular with many, for their ease-of-use. Thule and Titan brands also have their proponents.

Some vehicles have very tight clearances around the tires, and are limited in the kind of chains that can be used, or which wheels they can be installed on. Check your owner's manual. SAE Class S devices are for vehicles with restricted wheel well clearance.

While chains on all four tires are best, chains on two drive wheels is often sufficient. With 4WD / All-wheel Drive vehicles, which two tires to chain up is more of an open question. Chains on the front – steering – wheels make sense. Some prefer to chain up the rear two tires. I've also heard of chaining up the two passenger side tires, to provide more traction if the driver is forced to drive into a snow berm on the side of the road.

Some brands of tires are particularly popular. For studded tires, it is Nokian Hakkapeliitta with the studs molded in during manufacture. They run much quieter than standard studded tires. The Hakkapeliitta 10 is the newest model. For non-studded tires, it is the Bridgestone *Blizzard* winter snow tires. Some claim they are as effective as studded tires.

Of course, the most important safety factor in winter driving is the judgement of the driver. Being prepared, taking your time and giving other vehicles lots of room makes a difference.

Uranium and Radon Hazard in the Storm Mountain Community

Testing for uranium in your well water and radon in the air is a prudent thing for all Storm Mountain residents to do. Many have done so, and discovered the presence of both, and the need to address the issue. As you may have heard, uranium has been mined in the upper filings in the past.

Why can this be an issue? Wherever a well is near decomposing granite, there is the possibility of Uranium – and we have a lot of granite in our area. Whenever uranium is present, there is also the possibility of radon gas – a colorless, odorless radioactive gas that can collect in your home and, over time, cause lung cancer.

Some years ago, I wrote this account – recently updated - of our discovery of both. It provides links to testing resources. It can be found in the 'files' section of the stormmountain@groups.io website, and is also located at the following link in the "archive" section of the <https://stormmountain.org> website:

<https://www.stormmountain.org/archive/radon-and-uranium/>

Rattlesnake Removal

Robert Chapin - If you need a rattlesnake removed locally, I can help. I like the little guys, and they taste good. If you have a rattlesnake issue or concern, please contact me and I will come and take them from your property. Just remember a dead rattler with its head still attached is as dangerous as a live one. If you kill it, remove the head and bury it. If you see one dead DONT mess with it. They can strike for days after dying, just from reflex. I know from experience. I grew up chasing snakes and reptiles and selling them to pet shops. If you need some help, let me know. One thing I won't do is go under a cabin to get them... Anywhere else is ok. Text is best at: 970-820-0664.
